

WHAT IS AN ASC?

ASCs are facilities for surgical patients who do not need to be admitted to the hospital. ASC patients typically arrive for admission, have surgery performed in a full-service operating room with specialized staff, recover safely and quickly from anesthesia and return home within hours of their surgery. Some procedures require patients to stay for several hours to allow nurses to monitor their recovery.

WHAT TYPES OF SURGERIES ARE PERFORMED AT ASCS?

Depending on the ASC, the center may specialize in one service line such as plastic surgery or eyecare, while other centers may offer multi-specialties such as ear, nose and throat procedures, gynecological procedures, general procedures, orthopedic procedures and podiatry procedures.

You have selected Precision SurgiCenter, a federally recognized Medicare Certified Ambulatory Surgery Center, for your health care services. Your physician may or may not have an ownership interest in the Surgery Center as not all physicians who practice here have an ownership interest. As a patient, you have the right to receive a list of all physician owners in this facility, upon request.

WHY CHOOSE AN ASC?

ASCs are on the cutting edge of technology often utilizing the most current surgical innovations with the least invasive techniques allowing patients to return to their normal lifestyle sooner. ASCs are efficient, understanding that everyone's time is important. Their convenient surgical flow allows you less wait time and less bureaucracy and offers patient-friendly family-centered environments.

This Surgery Center has adopted the following list of Rights and Responsibilities for Patients:

PATIENT RIGHTS

- Exercise these rights without regard to sex or cultural, economic, educational, or religious background or the source of payment for his/her care.
- Treated with respect, consideration, and dignity.
- Provided with appropriate personal privacy, care in a safe setting, and free from all forms of abuse and harassment .
- Knowledge of the name of the physician who has primary responsibility for coordinating his/her care and the names and professional relationships of other physicians who will see him/her.
- Receive information from his/her physician about his illness, his/her course of treatment and his prospects for recovery in terms that he/she can understand.
- Receive as much information from his/her physician about any proposed treatment or procedure as he/she may need in order to give informed consent or to refuse this course of treatment. Except in emergencies this information shall include a description of the procedure or treatment, the medically significant risks involved in each, and to know the name of the person who will carry out the procedure or treatment.
- Actively participate in decisions regarding his/her medical care to the extent permitted by law, this includes the right to refuse treatment or change his/her primary physician.
- Disclosures and records are treated confidentially, except when required by law, patients are given the opportunity to approve or refuse their release.
- Information for the provision of after-hour and emergency care.
- Information regarding fees for service, payment policies and financial obligations.
- The right to decline participation in experimental or trial studies.
- The right to receive marketing or advertising materials that reflects the services of the Center in a way which is not misleading.
- The right to express their concerns and receive a response to their inquiries in a timely fashion.
- The right to self-determination including the right to accept or to refuse treatment and the right to formulate an Advance Directive.
- The right to know and understand what to expect, related to their care and treatment.
- Exercise his or her rights without being subjected to discrimination or reprisal.

PATIENT RESPONSIBILITIES

- Ask for an explanation if you do not understand papers you are asked to sign or anything about your own or your child's care.

- Provide complete and accurate information to the best of his/her ability about his/her health, any medications, including over-the-counter products and dietary supplements and any allergies or sensitivities.
- Gather as much information as you need to make informed decisions.
- Be available so staff can teach you how to care for yourself or your child; we want to share our knowledge with you but you must be prepared to learn.
- Follow the care prescribed or recommended for you or your child by the physicians, nurses and other members of the health care team; remember, if you refuse treatment or do not follow instructions, you are responsible for your actions.
- Respect the rights and privacy of others.
- Assure the financial obligations associated with your own or your child's care are fulfilled.
- Responsible for being respectful of his/her personal property and that of other persons in the Center.
- Take an active role in ensuring safe patient care. Ask questions or state concerns while in our care. If you don't understand, ask again.
- Provide a responsible adult to transport you home from the facility and remain with you for 24 hours, if required by your provider.
- Inform his/her provider about any living will, medical power of attorney or other directive that could affect his/her care.

ADVANCE DIRECTIVES

An "Advance directive" is a general term that refers to your oral and written instructions about your future medical care, in the event that you become unable to speak for yourself. Each state regulates the use of advance directives differently. There are two types of advance directives: a living will and a medical power of attorney. If you would like a copy of the official State advance directive forms, visit http://www.calhealth.org/Download/AdvanceDirective_English.pdf or http://www.calhealth.org/Download/AdvanceDirective_Spanish.pdf

OUR SURGERY CENTER'S ADVANCE DIRECTIVE POLICY

The majority of procedures performed at the Surgery Center are considered to be of minimal risk. Of course, no surgery is without risk. You and your surgeon will have discussed the specifics of your procedure and the risks associated with your procedure, the expected recovery and the care after your surgery.

It is the policy of the Surgery Center, regardless of the contents of any advance directive or instructions from a health care surrogate or attorney in fact, that if an adverse event occurs during your treatment at the Surgery Center, the personnel at the Surgery Center will initiate resuscitative or other stabilizing measures and transfer you to an acute care hospital for further evaluation. At the acute care hospital further treatment or withdrawal of treatment measures already begun will be ordered in accordance with your wishes, advance directive, or health care power of attorney.

I received information on patient rights, patient responsibilities, physician disclosure, advance directive policy and grievance policy at least one day in advance of my surgery
